Project

Belgrade, Nov. 19.—Ratification of the treaty of Rapallo by which Italy and Jugo-Slavia reached an agreement, settling the Adriatic question, was unanimously voted by the Jugo-Slav cabinet today.

CAPTURED BY AMERICANS.

Gen. Fayolle Declares United States a
Wonderland.

Paris, Nov. 19.—General Fayolle said upon his return recently from his three weeks' stay in the United States, "I have just discovered America and America has conquered me. It is a wonderland."

"It has been a hard fight, those three weeks in America," the general went on with the usual humorous twinkle in his eye. "I come back on the verge of collapse with grim dyspepsia holding me in its grip. Without taking back anything that I have said about American expeditionary force cooks being rank amateurs, I must take off my hat to American chefs. There were many banquets, luncheons, I survived them all."

To the suggestion that most of the chefs at the leading hotels were French, General Fayolle replied: "They may be but they certainly have undergone an evolution for they had strange dishes of their own."

"Did you miss your wine with your meals?" he was asked.

"I never missed my wine," Fayolle replied.

"Don't ask me to talk local American politics," General Fayolle went on, when requested to explain whether he meant that he had his wine twice a day as his custom or that he did not miss it temperance.

"I have had a grandiose reception that I shall never forget, although I am certain that it was not for me personally but because I represented Marshal Foch and the French army."

"I lived through it," concluded the general, "but even the organizers of my tour had to admit that it was a record for endurance."

EAST CORINTH

Rev. E. P. Cutler Shot Deer in Open
Zone in Dimock Orchard.

Rev. E. P. Cutler shot a nice deer in the Dimock orchard zone Wednesday. It was near the house and fell at the first shot.

Mrs. Emma Taplin was a week-end visitor at C. M. Page's.

Mrs. J. A. Dow has been spending a few days with friends.

The town woke up Wednesday morning to the fact that winter is near. A few inches of sleet and snow was on the ground, making bad traveling.

John Sweet has been moving into the house out of which the Shewells moved, known to old-timers as the Arad Corliss house. This will make it much more convenient to his work as foreman of the Bowen bobbin shop, also for the children to go to school this winter. They were to load a car to go to Newport Wednesday, but on account of the storm deferred it a day or two.

The men's fair and oyster supper came off with flying colors on Wednesday evening, despite the bad traveling.

Mr. Cutler has reason to feel proud of his men and boys, who rose so superbly to the occasion. A good number of articles were for sale and with Dr. Deming presiding at the drug counter and W. N. Deming at the wooden ware counter with several assistants, things were sold. It was remarked that Will Deming would sell a telescope to a blind man. The supper was fine. If the men can make such pies and cakes, we have little need of women cooks. It is mistrusted there was some women's work in them, though. E. P. Sawyer presided over the oyster stew and W. T. Thompson the coffee. A. C. Jackson was head waiter and a dozen or so young men under him made things go. An entertainment followed the supper. L. D. Smith of Wells River recited many Canadian dialect poems in a very pleasing way, with music by C. N. Thompson and daughter and Mr. Tucker of West Newbury. The net proceeds will be something better than \$100.

Doom, Holland, Nov. 20 (By the Associated Press).—Former Empress Augusta Victoria of Germany, whose condition has for several days given alarm to her relatives, was somewhat worse this morning. According to information received from Doorn castle her temperature was to be 83 degrees centigrade (102.2 Fahrenheit).

COMPANY MEMBER SENT TO PRISON

Lieut.-Col. Malone Charged With Sedi-
tious Utterances in Albert
Hall Speech.

London, Nov. 19.—Lieutenant Colonel L'Estrange Malone, liberal member of the House of Commons, who was arrested in Dublin Nov. 10, for alleged seditious utterances, to-day was sentenced to six months' imprisonment. There were loud cries of "shame" from sympathizers in court when the sentence was pronounced. Two sureties of 10,000 pounds each were demanded pending an appeal.

Prior to the sentence Malone declared through his attorney that he withdrew nothing and apologized for nothing in his Albert hall speech and was willing to stand trial. The case has caused a sensation in England because of his position as a member of the House of Commons and his notable war record.

Colonel Malone was also charged with the possession of two loaded pistols in violation of the law found by the police in his London flat. Linked with this charge was another allegation that he had in his possession two cloakroom tickets for parcels of pamphlets of a seditious nature which were deposited in an subway station checking room.

On this charge the prisoner was bound over on his good behavior to keep the peace for one year. Two sureties of 1,000 pounds each were asked, failing to furnish which another six months' imprisonment would be imposed. The colonel's attorneys gave notice of appeal.

The speech upon which Colonel Malone's arrest was based was delivered in Albert hall, in London, Nov. 17, upon the occasion of the anniversary of the Russian revolution. In it he is alleged to have said: "We are out to change the present constitution, and if it is necessary to have bloodshed and atrocities, we shall have to use the lamp posts or the wall. What are a few Churchills or a few Cursons on lamp posts compared with the misery of thousands of human beings?" Search of the colonel's London apartments was said by the police to have revealed a large number of documents of a revolutionary character.

MORE TALC PRODUCTION

Will Be Possible After Improvements
at Johnson.

The state of Vermont, which furnishes more talc than any other state, will increase its production on account of the new mill erected by the American Mineral company in Johnson at an appropriate cost of \$75,000, with a producing capacity of 125 tons per day.

Last May the American Mineral company broke ground for their new mill which is located on the Boston & Maine railway at Johnson. It is two hundred and fifty feet west of the present mill which has been producing, for several years, finished product at the rate of 70 tons per day. Both mills will have a daily total production of about 200 tons or an increase from 20,000 tons per year to over 50,000 tons and places the American Mineral company as one of the largest talc producing companies in this country.

The new mill is constructed on the site plan having six silos with a capacity of 300 tons each or 1,800 tons storage of finished product. In addition storage or rock bin capacity of 5,000 tons, making a total storage of 5,000 tons. The mill is equipped with the latest rock crusher, Burr mill and roller mill machinery, together with conveyors, separators, etc. Both mills are electric driven. Arrangements have been made for an additional 240 H. P. with the Morrisville Light and Power company.

The American Mineral company has its own mine covering about 300 acres of the finest talc produced in this country and supply considered inexhaustible. Mining is done much on the plan of coal mining and in the case of talc the deeper, the better.

Last July a change in the personnel was made and Claude R. Ace was appointed treasurer and H. A. Macbeth, general manager. This change under the direction of President F. S. Rix of New York, who has been connected with the company since its incorporation in 1904, has been of benefit and with the addition of the new mill, places the American Mineral company one of the leading talc mining and producing concerns in the United States. President Rix and party will inspect the new mill which will be in full operation about Jan. 1.

A TYPHOID EPIDEMIC.

Seven Hundred and Eighty Persons are
Suffering in Salem, O.

Salem, O., Nov. 19.—Seven hundred and eighty persons are to-day suffering from typhoid fever in this city of less than 10,000 people. Many emergency hospitals established within the last few weeks are filled with patients, and the situation, according to R. A. Lament, chairman of the citizens' relief committee, is desperate. An appeal has been made to the Red Cross. Eleven persons have died since the epidemic started.

COMPLETE CURE OF INDIGESTION

One Box of "FRUIT-A-TIVES" or
"Fruit Liver Tablets" Brought Relief

WILLIAM GALE SHEPHERD
Old Chatham, Columbia Co., N. Y.
"I was bothered with Constipation,
Liver Trouble and Indigestion for
three years; and tried all kinds of
medicine with no relief.

I was so bad I would have a dull,
heavy feeling in the pit of my
stomach; generally about three or
four hours after eating.

I saw advertised in the "Troy Times"
"Fruit-a-tives" and sent to R. W.
Seymour's drug store in Chatham
and bought two 50c. boxes. Before
I had finished one box, I was relieved
and now have no more trouble. I
can eat anything I desire.

I would advise anyone in the same
condition as I was, to take "Fruit-
a-tives"; it is a God-send, and I would
not be without "Fruit-a-tives" in the
house."

AMERICAN FARM BUREAU FAST GROWING

Now Has Over a Million Members and
35 State Organizations Affiliated
With It.

J. B. Howard, president of the Amer-
ican Farm Bureau Federation, an-
nounces at Chicago that the federation
has now over a million members and
has 35 state organizations affiliated
with it. The national federation took
permanent form here last spring and
established headquarters in Chicago
this past summer.

Sketching the character of the new-
comer among the national farm or-
ganizations, together with its program,
Mr. Howard, himself an Iowa farmer,
said:

"The federation is an alliance of
county farm bureaus into state farm
bureau federations and in this turn be-
came federated into a national organi-
zation as the American Farm Bureau
federation.

"Its purpose is to work for the eco-
nomic, social and educational advance-
ment of the farmers of the United
States and for the general welfare of
the nation. It is proposed to develop
this work by means of bureaus.

"Our bureau of agricultural economics
and statistics has already been set up.
It will make a study of costs of pro-
duction of the principal agricultural
products and will direct and compile
statistics in cooperation with the de-
partment of agriculture, and the vari-
ous state agencies. This work will
give a much better insight into the
supply and demand of agricultural
products, with the thought that this
will lead to more efficient marketing.

"Our bureau of transportation is
making a study of necessary transpor-
tation facilities, both by land and by
water, for the marketing of our farm
crops. The purpose of this bureau is
to get at the real facts in the trans-
portation problem and govern its ac-
tions accordingly. It purposes to es-
tablish rate and traffic files, which
have never yet been built up for agri-
cultural products.

"The bureau of trades relations will
make a study of world supply and
demand, as well as of our national
supply and demand. This informa-
tion, coupled with the work of the
farm economics and statistics bureau,
will give us accurate world-wide
knowledge upon which to base our
plans.

"We are already undertaking impor-
tant investigation of cooperation en-
terprise in marketing, which looks to-
ward the establishment of a bureau of
cooperation. This will make a study in
the country and abroad, with the
thought that special studies be inter-
ested in forming local or district co-
operative organization may profit by the
experience of other people in similar
enterprises before starting their under-
taking.

"The bureau of education which we
have planned but which has not yet
been started will present facts rela-
tive to the food supply and other ne-
cessities produced by agriculture to
the daily papers in order that there
may be a more general understanding
of agricultural production and a closer
relationship between producers and
consumer. This bureau will be a se-
rvice to agricultural papers, presenting
regional and national facts of particu-
lar interest to farm people and be of
service to our own affiliated farm or-
ganizations, state and county.

"Our bureau of legislation, which
is already in operation, is keeping a
close record of bills introduced in Con-
gress and is working for the introduc-
tion of legislation which we consider
essential to the proper development of
a national agricultural policy."

STRAFFORD

W. C. Hazleton and family of Bur-
lington, accompanied by his brother,
Luther C. Hazleton of Nebraska, are
visiting relatives in town.

The Housewives Burden

When a woman is almost distracted from overwork, her home
is in disorder, crying children, and on top of all is suffering from
backache, bearing down pains, or some other form of feminine ills,
then she should remember that hundreds of women in just her con-
dition have been restored to health and regained their youthful
strength by taking Lydia E. Pinkham's Vegetable Compound and
not rest until she has given it a fair trial.

Proof that it Restored the Health of These Two Women

Cairo, Ill.—"Some time ago I got so
bad with female trouble that I thought
I would have to be operated on. I had
a bad displacement. My right side
would pain me and I was so nervous I
could not hold a glass of water. Many
times I would have to stop my work
and sit down or I would fall on the
floor in a faint. I consulted several
doctors and every one told me the same
but I kept fighting to keep from having
the operation. I had read so many
times of Lydia E. Pinkham's Vegetable
Compound and it helped my sister so
I began taking it. I have never felt
better than I have since then and I
keep house and am able to do all my
work. The Vegetable Compound is
certainly one grand medicine."—Mrs. J.
R. Matthews, 3311 Sycamore Street,
Cairo, Ill.

Chattanooga, Tenn.—"I used Lydia
E. Pinkham's Vegetable Compound
before my baby came when I could no
longer keep up. It strengthened my
back and relieved me of the ill effect
which so often develops at such times.
That was my first experience with the
Vegetable Compound. Years after-
wards I took it during the Change of
Life and got along so well I scarcely
ever had to lie down during the day
and seldom had dizzy, fainting spells.
I am now well and strong, can do all
my housework with perfect ease and it
is a comfort to me to be able to say to
other suffering women 'take Lydia E.
Pinkham's medicine and be strong.'
I will be glad to have you use my name
if it will be the means of helping any
one."—Mrs. R. A. Fairburn, 609
Orchard Knob Ave., Chattanooga, Tenn.
